

Satellite System Engineer for EMEA

2 years extendable

BACKGROUND

Kosmas GEORING Services needs one experienced satellite system engineer for leading (a) satellite procurement team(s) for rapidly expanding operator(s).

The engineer needs to have experience with procurement activities of ASTRIUM / Thales-Alenia Space telecommunication spacecraft.

He needs to have participated in as much as possible of the lifecycle of procurement, from RFQ to proposal evaluation and emphasis on procurement monitoring activities on-site the manufacturer's facilities.

TASKS

- . Drafting RFQ
- . Proposal evaluation
- . Monitoring AIV (on site)

QUALIFICATION

Ideal candidate should meet the following criteria:

- Have 10 years experience in relevant job position;
- Be ready to travel and work in France and Middle East;
- Speak-write English fluently.

PLACE OF WORK

It is anticipated that 1 year will be spent at the facility of the operator that we will assist and 1-2 years at the site of manufacturing (Toulouse). During launch campaign he might have to follow activities at the launch site.

REMUNERATION

Salary after tax in the range \$ 16.000 to \$ 25.000 /month, according to qualifications and experience.
